In this Photoshop tutorial, I am going to show you how to make a vegetable parfait cup, that is, a parfait cup that has fruit sitting in the yogurt and is decorated like a cupcake. The parfait cup is a very quick and easy project to do and is suitable for beginner to intermediate users. Using any photo editor is a great way to make creative compositions and edit images. There are plenty of free online photo editors that you can use as well, such as Paparazzi. Follow me on Facebook and Pinterest to get the latest tutorials and tips on Photoshop and graphic design from 10 Minute Do. 1. Materials Needed The project is very simple, so the materials will not be difficult to find. Template of the cup with the Photoshop file Draw the exterior of the cup in the template We need a template for this project, and I prefer to make my templates using Draw or Illustrator rather than using Photoshop's rectangle tool. I do this so that I can use the design of the template for future projects. I have printed them out and cut them out as well as scanned and saved them as separate layers so that I can use them multiple times. So, you too can make templates for future projects like this one. Copy the pixels of the template in a new Photoshop file First, we need to make a copy of the template. We can easily do this by copying and pasting the pixels of the template into a new Photoshop file (Image 1). Make sure that this file is set to 72 dpi, so it will print at its proper size. Flatten the layer by clicking the Layers icon on the far left side of the Photoshop window (Image 1). Flattening the layer makes the border look like a single image so that it can be easily cut out. The edges of the template are highlighted in red so that it is easy to spot. Color fill the cup Next, we need to color fill the cup. These images are small (about 3 inches wide by 2 inches tall). So, we won't have any trouble coloring the images correctly. Just remember to use a light color to make it look like a cupcake and a darker color for the background. 2. Shape the Cupcake and the Fruit Start by selecting the right cupcake and fruit colors and transforming them into layers. Start with the

Recent data on the efficacy of metformin in the treatment of polycystic ovary syndrome. Polycystic ovary syndrome (PCOS) is one of the most common endocrine disorders with a prevalence of 10-15% in women of reproductive age. It is characterized by anovulatory infertility, hyperandrogenism, polycystic ovaries, and an increased risk of infertility, hirsutism, and gestational diabetes. Metformin, an effective oral antidiabetic agent, lowers blood glucose levels and has been shown to improve insulin resistance and to stimulate the growth of human luteinized granulosa cells. Its efficacy and safety have been demonstrated in PCOS. In this review, we aimed to highlight recent clinical evidence for the use of metformin for the treatment of PCOS. We searched for original clinical trials reporting at least 2 years of follow-up, with a follow-up rate of greater than 70% in randomized controlled trials and meta-analysis. We also searched for randomized controlled trials, cohort studies, and case-control studies in MEDLINE. The search covered the period from January 2000 to May 2010. A systematic review was done for all the studies, and all data were extracted. All the meta-analyses of random-effects were pooled by using Review Manager (RevMan 5.1, The Cochrane Collaboration, Oxford, UK). A good response to therapy was defined as a 2 kg weight loss or a decrease in total cholesterol levels of at least 30% and an increase in high-density lipoprotein cholesterol levels of at least 10%, both observed after the completion of 2 years of treatment. A good response was observed in an average of 25% of women treated with metformin compared to 13% of those who did not receive metformin. The most frequent adverse event was gastrointestinal discomfort, which was seen in 5% of the metformin-treated women and 1% of the control women. A good response to treatment was observed in 25% of PCOS women taking metformin as monotherapy, whereas it was observed in only 13% of PCOS women not taking metformin. What's New in the Adobe Photoshop 2021 (Version 22.4.1)?

Motorized bicycles, such as utility bicycles, police bikes, and touring bikes, are gaining popularity due in part to the acceptance of motorized skateboards. However, most such existing utility bicycles are single-person bicycles, which limits the utility of the bicycle for the person riding the bicycle. The rider is restricted to one person's use of the bicycle. Similarly, existing multi-person bicycles are not motorized, do not provide rear-wheel drive, and do not provide safety features for a group of people riding the bicycle. Chinese bikers have taken off their pants (Picture: AP) Two men riding Chinese bikes bare-assed through the streets of a city in western China have become a viral sensation after one of them was run over by a car and broke his left leg. Video of the incident was posted on social media on Saturday and has gone viral since with it shared over 4.8 million times. In the video, a man rides his bike south through a narrow street in Wenzhou, a city in southeast Zhejiang Province. The biker then turns onto a second street and stops to let a car pass. As he waits, a man on a second bike next to him begins talking to him. That man then removes his pants – as a gesture of friendliness – and the two have an awkward conversation before the first rider starts off again on his bike. The video then cuts off, but after Wenzhou police looked at the clip and found 'good comments' online, they vowed to help investigate, as it is against the law for public officials to ride without pants. It is now believed the two men are friends, although their identities have not yet been confirmed. The biker has since shown his injuries (Picture: AP) The car hits him (Picture: AP) Several people have suggested that the bikers are talking about not wearing pants due to Chinese New Year, when people traditionally wear heavy clothing in celebration of a good harvest. However, many others feel the act is bizarre and a case of 'too much information'. Wenzhou's public security bureau told local media that officials will launch an investigation on Monday into the incident. 1.
